PROFESSIONAL DEVELOPMENT SESSIONS ENHANCING QUALITY IN VICTORIAN COMMUNITY LANGUAGES SCHOOLS

Professional Development sessions for Victoria's Community Languages School Teachers and Instructors are in great demand attracting strong numbers of participants.

The program funded by the Department of Education and Training (Victoria) give participants a real hands approach to enhancing their classroom.

Last Wednesday over 50 participants heard **Maria Gindidis** Innovations and Excellence Educator with the Department of Education and Training speak about motivating students especially in the middle years. They were provided with a range of strategies to take and try out in their classrooms. *Give us more was the catch cry at the end.*

Last night **Marika Cikoja** Principal of the North Melbourne Ukrainian Community Schools presented again to large number of participants – Curriculum development, implementation and bringing your planning into the classroom. The theme was Curriculum Design (School Perspective). A practical packaged, take home and try approach which is appreciated by those who attend.

Both Maria and Marijka will be presenting at this Saturday's State Community Languages Schools Conference which currently has close to 300 registered participants.

PD, enhancing our teaching and learning and improving quality are very much on the ball!

Many thanks to all who attended.

Copies of the Presentations will be on the website shortly
